The McMag 2000 provides farmers and irrigators an affordable and easy-to-read mag meter with minimal maintenance and little to no downtime. As the only mag meter on the market with a price tag comparable to a propeller meter, the McMag 2000 has a low cost of ownership without compromising durability and accuracy. The McMag 2000 is portable, an efficient purchase for users with multiple irrigation lines. This mag's familiar saddle-style form and streamlined functionality allows for in-field programmability and serviceability.

McMag 2000 can be installed easily in-field, minimizing downtime

Modular design allows each piece to be independently replaced and self-serviced

McMag 2000 has a low cost of ownership offering mag meter technology for the price of a propeller meter

The saddle style design and DIY converter programmability allow for portability

Specifications

Accuracy:	$\pm 2\%$ of reading guaranteed throughout full range; $\pm 1\%$ over reduced range; calibrated in our NIST traceable test facilities. Repeatability of 0.25% or better.
Fitting Type:	Retrofit available using Mc® Propeller saddle. Portable saddle-style design
IP Rating:	IP67
Line size:	4" to 12"
Power:	DC power optional
Register:	Standard instantaneous flowrate indicator and six-digit straight-reading totalizer Hermetically sealed within a die-cast aluminum case Includes a domed acrylic lens and a hinged lens cover with locking hasp Pulse-out available for system integration IP67 to protect from harsh environments DC power optional
Requirements:	5D upstream, 2D downstream
Temperature Range:	(Standard Construction) 160°F constant.
